Rule 1.5 Use of Diet Medication.

Pursuant to Mississippi Code, Section 41-29-139(e), it is unlawful for any licensee to prescribe, dispense or administer any medication classified as Schedule II, pursuant to Section 41-29-115, for the exclusive treatment of obesity, weight control, or weight loss.

Prescribing or dispensing a controlled substance for weight reduction or the treatment of obesity should be based on accepted scientific knowledge and sound clinical grounds. All such prescribing and dispensing must be in compliance with applicable state and federal laws.

The licensee providing comprehensive treatment of obesity must be present at the facility when he or she prescribes or dispenses¹ controlled substances for the purpose of weight reduction or the treatment of obesity. A licensee may administer, order, dispense or prescribe controlled substances for the purpose of weight loss or the treatment of obesity only as an adjunct to a clearly documented comprehensive program of behavior modification, comprehensive nutritional education, and exercise or physical therapy intervention. The licensee must comply with all of the following conditions:

- A. An initial comprehensive evaluation is to be conducted by and thoroughly recorded by the prescribing licensee prior to the prescribing, ordering, dispensing or administering of any drug. Such evaluation should include a thorough history and thorough physical exam of the patient to include at a minimum:
1. Past medical history, past surgical history, social history, family history, weight history, dietary history, gynecological history, review of systems, allergies and medications.
 2. A physical exam to include height; weight; blood pressure; pulse; % body fat or waist circumference/weight hip ratio; lungs; heart; abdomen; and extremities.
 3. Appropriate testing related to medical weight loss (CBC, comprehensive metabolic profile, lipid panel, thyroid panel, EKG, if prior or present history of cardiac disease, hypertension, diabetes, dyslipidemia, or strong family history of cardiac disease age >60)
 4. The licensee must determine and record the patient's Body Mass Index ("BMI"). No patient should receive anorexic medications unless the patient has (i) a BMI of ≥ 30.0 in a normal otherwise healthy patient, or (ii) a BMI ≥ 27.0 in an individual with at least one associated co-morbidity, or (iii) current body weight ≥ 120 percent of a well-documented, long standing healthy weight that the patient maintained after the age of 18, or (iv) body fat $\geq 30\%$ in females, or body fat $\geq 25\%$ in males, or (v)-waist-hip circumference such that the individual is known to be at increased cardiovascular and/or co-morbidity risk because of abdominal visceral fat, or presence of a co-morbidity condition or conditions aggravated by the patients excessive adiposity. The indication for anorexic therapy must be documented in the record and re-evaluated at each visit or with each prescription refill.
 5. Absolute contraindications of Schedule III or IV anorectic drugs for purposes of weight loss management are pregnancy, breast feeding, or severe allergic reactions to these medications. Relative contraindications of Schedule III and IV anorectics for the purpose of weight loss management are uncontrolled bipolar, uncontrolled epilepsy,

¹ Part 2640, Rule 1.9, controls in all cases. Physician assistants are not permitted to dispense medication.

- uncontrolled hypertension, episodic tachyarrhythmia, excessive stimulation, history of substance abuse, severe anticholinergic effects, such as, extreme dryness of mouth or unmanageable constipation should be addressed with licensee prior to starting weight loss medications. Schedule III and IV anorectics can be used in conjunction with any other medications deemed safe by the licensee.
- B. The licensee must not utilize any Schedules III, IV or V controlled substance when he or she knows or has reason to believe an absolute contraindication exists or relative contraindication exists that would be harmful to the patient.
 - C. A licensee is not permitted to prescribe, order, or dispense controlled substances for the purpose of weight reduction or treatment of obesity greater than a 30-day supply. Exempted from this requirement are those licensees defined in Rule 1.2(M) and those licensees treating patients resulting from a referral to those licensees defined in Rule 1.2(M).
 - D. A patient continued on a controlled substance for the purpose of weight reduction or the treatment of obesity must undergo an in-person re-evaluation once every 30 days; however, those licensees defined in Rule 1.2(M) may re-evaluate patients once every 90 days. A recording of weight, BMI, blood pressure, pulse, and/or any other test which may be necessary for monitoring potential adverse effects of drug therapy should be completed at each visit. Once medically established goals have been met for an individual patient, the need for ongoing medication should be re-evaluated and documented in the record.
 - E. Continuation of the prescribing, ordering, dispensing, or administering of controlled substances should occur only if the patient has continued progress toward achieving or maintaining medically established goals and has no significant adverse effects from the medication.
 - F. A licensee must not utilize a schedule III, IV or V controlled substance or legend drug for purposes of weight loss unless it has an FDA approved indication for this purpose and then only in accordance with all of the above enumerated conditions. The purpose of this rule is to prohibit the use of such drugs as diuretics and thyroid medications for the sole purpose of weight loss.

Off-label use of any medication that does not have Food and Drug Administration approval for use in the treatment of weight loss is prohibited if administered solely for the purpose of weight loss. Thyroid hormone, diuretics, vitamin B12, B1, B2, B6, methionine, choline, inositol, chromium picolate, and human chorionic gonadotropin are examples of medications that may not be used in this manner. This prohibition does not apply to FDA categories of nutritional supplements sold without prescription.

Licensees may request the Board waive the FDA requirements set forth in Rule 1.5(F) on a per-medication or class of medications basis, for good cause. Temporary waiver may be approved by the Executive Director until the request can be heard before the Board.

RESOLUTION

Whereas, it is necessary for the Occupational Licensing Review Commission to issue a resolution regarding the approval or denial of specific rules submitted for its review: NOW, THEREFORE, LET IT BE RESOLVED BY THE OCCUPATIONAL LICENSING REVIEW COMMISSION, that the following rules shall be known to have been approved by the Commission at a duly called meeting of its members on June 13, 2023, and may now be filed as final with the Secretary of State's Office for inclusion in the Mississippi Administrative Code:

- Rules of the Mississippi State Board of Medical Licensure - Title 30, Part 2605, Chapter 1, R. 1.1-1.4: Removal of antiquated language; Adding new rule setting requirements for IMLC applicants to provide supplemental documentation as a part of licensure process.
- Rules of the Mississippi State Board of Medical Licensure - Title 30, Part 2605, Chapter 2, R. 2.1: Revision of the regulations regarding licensure requirements for Podiatrists.
- Rules of the Mississippi State Board of Medical Licensure – Title 30, Part 2605, Chapter 3, R. 3.1: Removal of antiquated language; Updating language related to temporary licensees and the requirement to maintain and utilize their own U.S. Drug Enforcement Administration registration.
- Rules of the Mississippi State Board of Medical Licensure – Title 30, Part 2601, Chapter 2, R. 2.1: Revision to regulation to allow waiver of the one-year time limit to complete an application.
- Rules of the Mississippi State Board of Medical Licensure – Title 30, Part 2601, Chapter 1, Rules 1.1-1.3: Revision of regulation to add a definition; Removal of competency exceptions for licensees performing charity work or research.
- Rules of the Mississippi State Board of Medical Licensure – Title 30, Part 2640, Rule 1.5: Revision of regulation to allow waiver of FDA requirements for good cause.
- Mississippi Board of Nursing – Title 30, Part 2825, Chapter 2: Repeal of Chapter 2, Rules of Procedure in its entirety.
- Mississippi Board of Nursing – Title 30, Part 2826, Chapter 1, R. 1.1-1.12: Adding new regulation to implement the Mississippi Nurse Voluntary Program.
